## Extra-Long SL-Track

The Market's Longest SL-Track features a 56-inch extended design that delivers a smooth, well-contoured massage from neck to buttocks. It follows the natural curve of the spine for consistent coverage and a softer, more comfortable full-body massage experience.

## 181° Full-Body Recline Innovation

Extended recline combined with ergonomic body alignment is designed to support the natural curve of the body and adapt more precisely to each user. This system helps reduce pressure points while improving comfort and stability, allowing the rollers to reach deeper muscle layers more effectively for a more natural and restorative full-body massage experience.

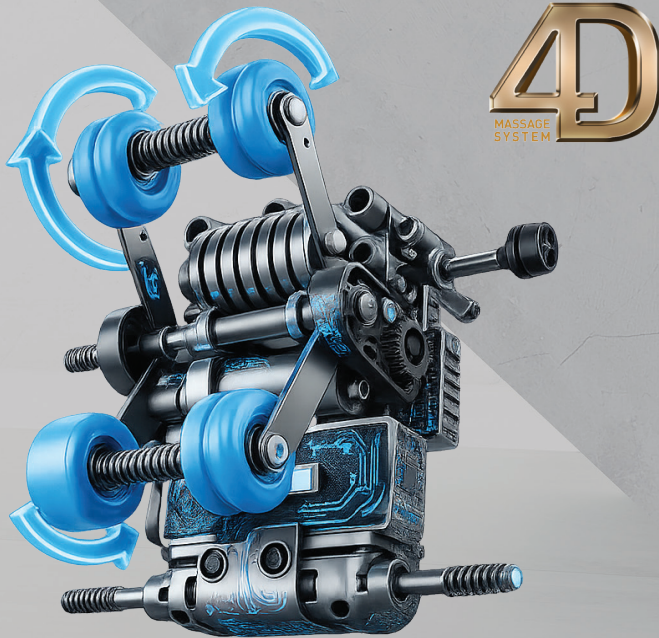

## 6 Level Adjustable 4D Massage Depth

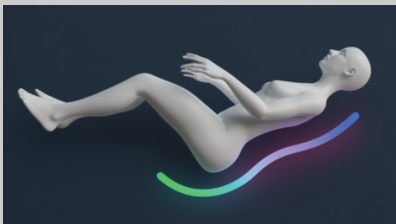

Six intensity levels allow you to customize massage depth precisely to match your body condition and personal preference for optimal comfort and results.

## World's First 181° Hyper 4D Full-Body Massage System

The Intelligent 4D Roller System is an advanced massage technology designed to mimic the movements and techniques of professional human massage therapists. Unlike traditional 2D or 3D massage rollers that move mainly up and down or side to side, the 4D rollers add depth control and variable speed, allowing for a more customized and realistic massage experience.

## Celebrity Reviews

Martha Stewart

Just trying out my @kahunachair for the first time, we put it in the office so everyone could have the opportunity to use it. I must say it is a real treat and very good for stress relief and muscle aches and stiffness.

Jamie Foxx

When i am stressed i have to laid on the big KAHUNA. Most incredible massage chair. You'll ever feel in your entire life. The big KAHUNA!
